

Lenapehoking Program Overview

About The Paterson Museum

The Paterson Museum acquires and preserves the cultural, technological and geological history of our city. The Museum interprets and exhibits Paterson's unique scientific, historic, and cultural legacy. We aim to educate and inspire all generations of Paterson's contributions to our nation's history.

Program Description

Lenapehoking is an immersive educational escape room experience that takes participants back in time to the world of the Lenape people between 1100 and 1500. Through interactive challenges, participants will uncover key facts about Lenape culture, discover hidden clues, and solve engaging puzzles to "escape" the game. This program also features hands-on artifact exploration, a guided tour of our Lenape exhibit, and concludes with a fun trivia bingo session to reinforce the knowledge gained throughout the experience.

Activities

- Lenapehoking Escape Room
- Lenape Exhibit & Artifact Handling
- Lenapehoking Trivia Bingo
- Self-Guided Tour of Museum (*optional*)
