

Industrial Paterson Program Overview

About The Paterson Museum

The Paterson Museum acquires and preserves the cultural, technological and geological history of our city. The Museum interprets and exhibits Paterson's unique scientific, historic, and cultural legacy. We aim to educate and inspire all generations of Paterson's contributions to our nation's history.

Program Description

Industrial Paterson is an engaging and educational program that explores Paterson's rich industrial history. Participants will enjoy a guided tour exploring the city's key industries, from textiles to locomotives. They'll test their knowledge in a fun guessing game using industry-related words, then get creative by making a collage using historical photos.

Activities

- Tour of Industry Exhibits (*Museum Only*) / Intro to Paterson Industries (*Off-site*)
- Industry Words Guessing Game
- Paterson Industries Collage

Location

This program can be held at The Paterson Museum. Paterson groups can also have this program brought to their school/ classroom or other location.

Academic Goals

To learn about how Paterson became the first planned industrial city and the industries that formed here.

Program Duration: 2 hours, one time program
